## Summary

Senior learning experience designer and PMP-certified project manager with 10+ years of experience turning complex ideas into practical learning experiences. Leads projects from early discovery through launch, bringing together subject-matter experts, designers, and media teams to define the work and move it forward. Combines a background in physics and science education with hands-on design, AI-assisted development, and a practical sense of what to build, where to invest effort, and when to launch.

## Professional Experience

### Senior Learning Experience Designer and Project Manager

Duke University - Durham, NC (Remote) | April 2021 - Present

- Led learning design and project delivery for 50+ online courses and Specializations across engineering, data science, healthcare, and business, working with experts to translate complex subject matter into relevant practice and assessment.
- Guided multidisciplinary teams from early ideas through launch, defining scope, coordinating resources and reviews, and adapting plans as requirements changed. Helped stakeholders resolve competing priorities and make decisions about quality, timing, and available capacity.
- Designed hands-on coding practice, branching scenarios, interactive media, and case-based learning for technical and professional audiences. Used learner feedback, expert consultation, and prototypes to shape experiences around what people needed to understand and do.
- Developed course design resources used in 25 published courses and trained faculty, Duke Corporate Education partners, and fellow designers to use them. Built on this work through a shared design guide, planning templates, and reusable examples.
- Designed and built a Claude API-powered Interactivity Generator and Coursera plugin, bringing activity selection, working previews, content editing, expert review, and export into one workflow, with static text alternatives for learners.
- Co-designed Coursera's integrated labs interface, now deployed platform-wide, applying Universal Design for Learning to make technical learning environments easier to navigate.
- Strengthened team delivery through project scoping tools, resource plans, quality review frameworks, and AI-assisted workflows. Mentored designers in project management and learning design, helping them plan their work, navigate constraints, and develop their own judgment.

## Professional Experience (continued)

### Learning Experience Designer

Duke University - Durham, NC (Remote) | January 2020 - April 2021

- Led design sprints with faculty across Duke University and Duke Health, translating complex subject matter into online and hybrid learning experiences.
- Developed interactive prototypes and assessments; used learner analytics and faculty feedback to refine course designs.

### Educational Technology Specialist

High Point University - High Point, NC | July 2018 - December 2019

- Led campus-wide learning technology initiatives, supporting 100+ faculty in adopting instructional technology and Blackboard LMS.
- Created and scaled Blackboard Bootcamp, improving faculty confidence by 32% and reducing support requests by an average of 18%.
- Designed the university's first cross-disciplinary Pathway system using e-portfolios and achievement badges, giving leadership greater visibility into student progression.

### Program Manager (K-5 Engineering Education)

UNC Greensboro - Greensboro, NC | August 2015 - December 2017

- Coordinated Engineering is Elementary implementation across schools, coached teachers, and adapted programming for different learning contexts.
- Designed teacher professional development and research instruments to evaluate the program and inform district planning.

### Instructional Designer and Project Manager

UNC Greensboro - Greensboro, NC | September 2013 - July 2015

- Managed course development teams of faculty, multimedia developers, and designers; designed and launched UNCG's first MOOC.
- Coordinated milestones, accessibility requirements, and stakeholder needs for online courses on Canvas and WordPress.

## Tools and Platforms

**AI and development:** Claude, Claude API, Claude Code, Claude Design, ChatGPT; AI-assisted HTML/JavaScript development.

**Authoring and media:** Articulate Storyline, Vyond, Camtasia, Adobe Captivate, Illustrator, Character Animator.

**Platforms and planning:** Coursera, Canvas, Blackboard, WordPress, PlayPosit, Monday.com.

## Education and Certification

Project Management Professional (PMP) | Project Management Institute

M.S. Science Education | North Carolina State University

M.S. Engineering Physics | Appalachian State University

B.S. Physics | University of North Carolina at Greensboro

## Recognition

Coursera Vision & Values Award (2025) - Duke team recognition

Duke Presidential Award (2021)
